

# EXCEL MODULAR ALUMINUM PLANK

Part Number	Description	Weight (lbs.)	Uniform Load (lbs./ft.)	Center Load (lbs.)
AB7	7' x 19" Aluminum Plank	30.5	112	600
AB8	8' x 19" Aluminum Plank	37.5	112	600
AB10	10' x 19" Aluminum Plank	46.5	112	600

DECKING MATERIAL

**All material must be inspected prior to use! See inspection guidelines on page 43 of this manual.**

Aluminum boards are for use in applications where the weight of standard metal boards are a concern, or when the use of aluminum may be preferred over galvanized metal decking.

**BUILD NOTE:**  
Where a possibility of uplift could occur, all boards should be securely attached to the scaffold with #9 wire, tie wraps, toe boards, filler plates or other equivalent means.
