

EXCEL MODULAR CASTER

Part Number	Description	Wheel Type	Weight (lbs.)	Allowable Rolling Load (lbs.)
CR8	8" Caster with Pin	Plastic/Rubber	17	900
CRF8	8" Caster Flat Base	Plastic/Rubber	17.5	900
CR12	12" Caster	Plastic/Rubber	23	1,300

Third-party manufactured component. Data may vary.

All material must be inspected prior to use! See inspection guidelines on page 112.

BUILD NOTES:

- Casters must be locked while working on the scaffold.
- 2. Check the weight of the scaffold and intended load when using casters. To maintain a 4:1 safety factor, a scaffold 15 feet high with two (2) board decks is the largest scaffold that should be built with 8-inch casters. A scaffold 21 feet high with three (3) board decks is the largest scaffold that should be built with 12-inch casters.

MAINTENANCE:

- Casters should be periodically maintained.
 If they have grease fittings, they should be filled with a white lithium grease (ST-80 High-Performance Grease or its equivalent).
- 2. WD-40 can be used before application of grease or oil to loosen old grease and remove any rust buildup.
- The caster bearings must be inspected for any wear or damage. Replace any casters that show signs of wear or damage.
