Snow ladders provide a greater non-slip tread for use in snow, ice or other slippery conditions.

Rugged, extra-grip rungs help prevent slips.

Snow ladders are not compatible with regular ladder brackets and must use the clamp and pin style snow ladder bracket. The base of snow ladders must be placed on grade or the deck.

BUILD NOTE: Snow ladders are not designed to support loads, such as walkways, pipe supports, pipe hangers, lifting rigs, etc. Ladders should only be used for access to scaffolds.

**All material must be inspected prior to use!
